342 Madison Avenue
New York, New York 10017

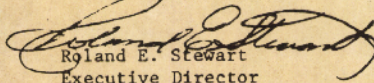

Dear Sirs:

At my recent Executive Committee meeting of January 31, 1972, mention was made of the absence of payment to BICC by ADP-PDS, and the seeming breach of faith. The mood was surely not favorable. It further appears that 1200 people will not be attainable by March 31st unless we simply profile people, match them and not interview, counsel, and refer until April or May.

The Executive Committee assessed BICC's interview process as meaningful instead of "quick and dirty". They also wondered what has been the experience with the VR agencies.

It would serve an extremely useful purpose to meet with you here early next week to discuss the above, our memorandum dated January 27th, and to receive payment.

Yours truly,

Roland E. Stewart
Executive Director
